

PT SERIES PERIMETER TRIMS

Specify as: SOFTFORMS® Perimeter Trim

Model No. PT-X

MATERIAL: Aluminum alloy.....6063 T5 or equal
Finish..... **Semi-Gloss White**

The extruded aluminum profile shall incorporate a continuous integral fin top and bottom for surface contact to conventionally installed acoustical ceiling tiles, or a separate flange for attachment to gypsum drywall. The fins shall be 3/4" wide and shall be untapered to the edge.

Two or more areas shall be incorporated into the back of each extrusion, with a series of continuous extruded grooves to provide a greater bonding surface for joinery.

The extruded profiles shall be factory painted to match standard ceiling grid finish.

TYPICAL SECTION **Perimeter Trim**

PT SERIES

PERIMETER TRIMS

An extruded aluminum perimeter trim offering flexible design and ease of installation. PT TRIMS can be used with acoustical or drywall ceilings, and are compatible with all major exposed grid systems. Create height transitions in your ceiling with custom serpentine, convex, or concave configurations, or as a lighting cove in conjunction with recessed lighting, and Pittcon's own series of CC-1-TF ceiling covers.
